Project Design Phase
Proposed Solution Template

Date	06-April-2026
Team ID	SWTID-2026-2633
Project Name	Automating data import and relationship mapping import sets and Dot walking
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Organizations face challenges in importing large volumes of data from external sources.
2.	Idea / Solution description	The solution uses Import Sets as staging tables and Transform Maps to automate the process of importing, transforming, and loading data into target tables.
3.	Novelty / Uniqueness	The solution provides a fully automated and structured approach to handle both data import and relationship mapping in a single workflow.
4.	Social Impact / Customer Satisfaction	Improves data accuracy and reliability, leading to better decision-making.
5.	Business Model (Revenue Model)	Can be offered as an implementation service or automation solution for organizations using ServiceNow
6.	Scalability of the Solution	The solution is highly scalable as it can handle large datasets and can be reused across different modules and organizations.
